AUREA

The Shape of Light.

The Spring/Summer 2027 collection by De Santis by Martin Alvarez celebrates a confident, elegant, and free-spirited femininity, moving effortlessly between structure and lightness, simplicity and seduction.

The collection is born from the encounter between Italian tailoring tradition and a contemporary vision of femininity. Clean lines and defined proportions shape the silhouettes before giving way to movement: voluminous skirts, soft shapes, delicate transparencies, and dresses that follow the body without constraining it.

White opens the story as an expression of purity and light. It is followed by aquatic hues, lilac, sage green, and natural shades, evolving into the intensity of red and the metallic reflections of evening.

Floral prints and intricate embellishments introduce colour and rhythm, creating a continuous dialogue between delicacy and character.

Lace, organza, fluid fabrics, pleats, embroidery, sequins, and feather details define a collection built on the contrast between texture and lightness. Tailoring meets transparency, precision alternates with fluidity, while subtle details become distinctive elements of each garment.

The De Santis by Martin Alvarez woman shifts effortlessly between different expressions without ever losing her identity. She can be minimalist, romantic, daring, or sophisticated, yet she always remains the protagonist.

SS 2027 is a journey through colour, texture, and movement. A celebration of femininity, where tradition and contemporary vision come together in timeless elegance.

100% Made in Italy.
